# About Us

## Patel Timber - A Legacy of Excellence & Quality!

### Our Journey

Established in 1986, Patel Timber Company has grown from a small family-owned business into a leading timber supplier. Our journey is marked by our dedication to quality, innovation, and sustainability. We have built a reputation for excellence, serving clients across various industries with integrity and professionalism.

### Our Vision

To be the premier choice for high-quality timber products, fostering sustainable growth and innovation in the timber industry.

### Our Mission

- To deliver superior timber products that meet the highest standards of quality and durability.
- To promote sustainable forestry practices.
- To provide exceptional customer service and support.
- To continually innovate and expand our product offerings.

# Timber Consulting

Navigating the world of timber can be complex. Our timber consulting service provides you with the expert advice you need to choose the right materials and methods for your project. Whether you are planning a new construction, renovation, or a custom woodworking project, our consultants are here to help.

- **Project Assessment:** Detailed analysis of your project needs.
- **Material Recommendations:** Suggestions on the best timber types and grades.
- **Cost Estimation:** Budget planning and cost-effective solutions.
- **Sustainability Advice:** Guidance on eco-friendly and sustainable timber options.

## Door Frames Design

At Patel Timber Company, we specialize in designing and crafting door frames that enhance the beauty and functionality of your spaces. Our door frames are made from high-quality timber and are available in various styles to suit your aesthetic preferences.

- **Custom Designs:** Tailored door frame designs to match your architectural style.
- **Variety of Timber:** Choose from a range of hardwoods and softwoods.
- **Precision Crafting:** High-quality craftsmanship ensuring durability and elegance.
- **Finishing Options:** Various finishes available, including natural, stained, and painted.

## Polish & Lamination

Our polish and lamination services are designed to bring out the best in your timber products. We use high-quality materials and techniques to ensure a flawless finish that protects and enhances the appearance of your wood.

- **Polishing:** Professional polishing services for a smooth and shiny finish.
- **Lamination:** Durable lamination options that add an extra layer of protection.
- **Custom Finishes:** Choose from matte, glossy, or satin finishes.
- **Protective Coatings:** Application of protective coatings to prevent wear and tear.

## Supply to Furniture Stores

Patel Timber Company is a trusted supplier of raw timber materials to furniture shops and manufacturers. We provide a consistent supply of high-quality wood, ensuring that your production lines run smoothly and efficiently.

- **Wide Range of Timber:** Hardwoods, softwoods, and specialized timber species.
- **Custom Cuts:** Timber cut to your specific dimensions and requirements.
- **Bulk Supply:** Capable of handling large orders with timely delivery.
- **Sustainable Sourcing:** Eco-friendly and responsibly sourced timber.

## Delivery & Logistics

- **Timely Delivery:** Ensuring your products arrive on schedule.
- **Efficient Logistics:** Managing large orders and special requests seamlessly.

## Sustainable Practices

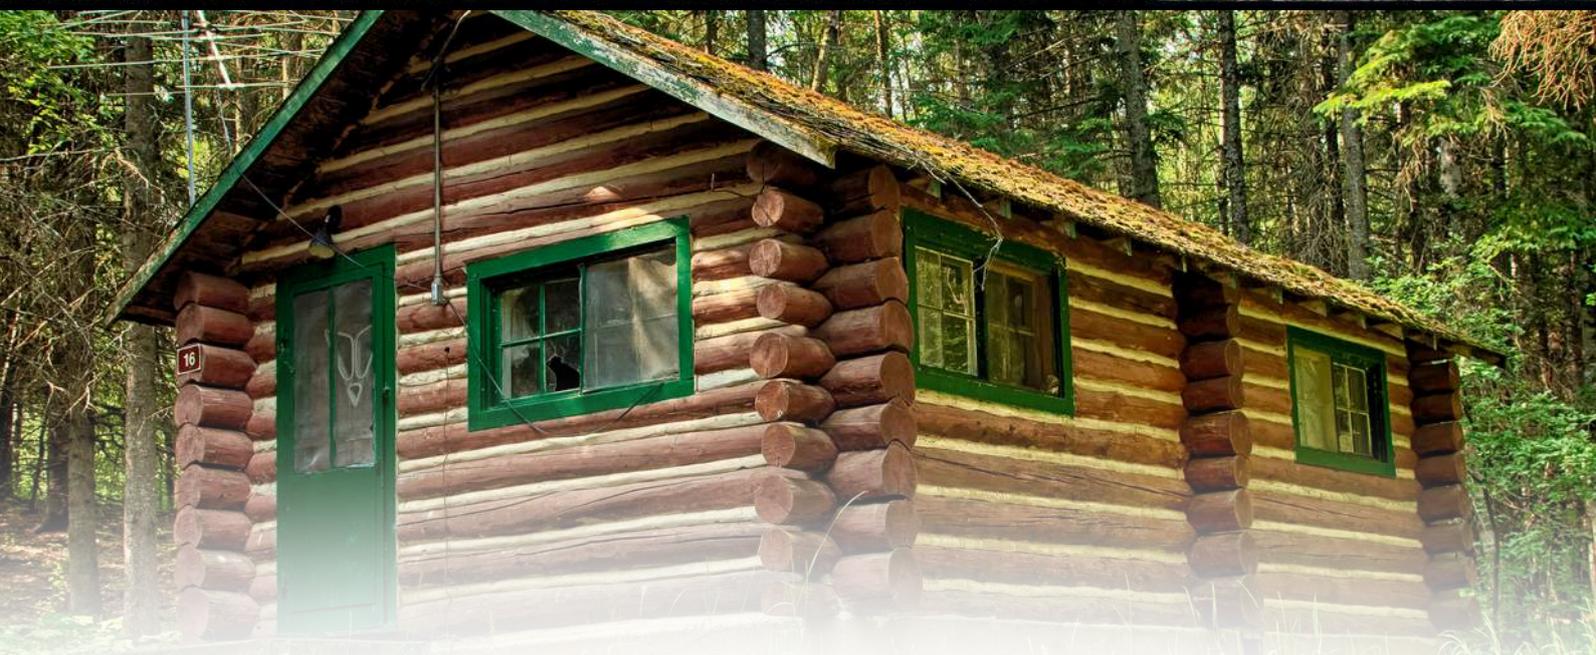

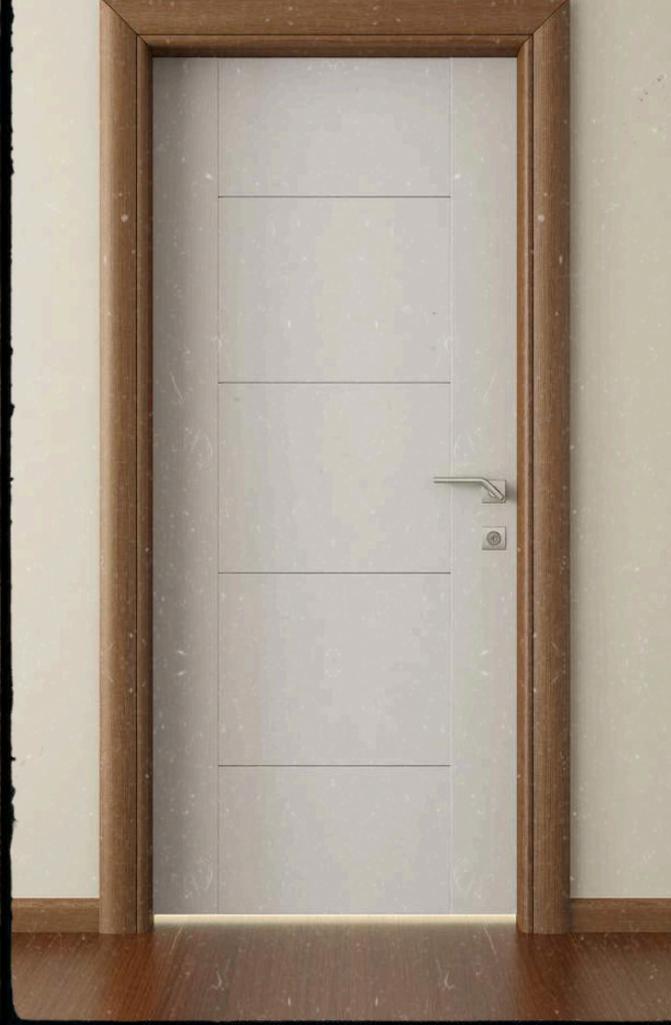

- **Eco-Friendly Sourcing:** Partnering with sustainable suppliers engaged in re-planting the trees wherever utilized.
- **Recycling & Waste Management:** Implementing practices to reduce waste.

## Comprehensive Solutions

In addition to our core services, Patel Timber Company offers a range of supplementary services to ensure all your timber and woodworking requirements are met.

- **Custom Timber Solutions:** Tailored timber products for unique projects.
- **On-Site Assessments:** Professional site visits to evaluate project requirements.
- **Installation Support:** Assistance with the installation of our timber products.
- **After-Sales Service:** Ongoing support and maintenance services.

# OUR PRODUCTS

At Patel Timber Company, we provide a diverse range of timber products, each crafted to perfection and designed to meet the highest standards of quality and durability to be used in construction, furniture making, and various other applications. They come in many varieties, each with unique characteristics suited to specific uses. Explore our extensive product offerings below :

# TEAK WOOD

- **Characteristics:** Golden brown, oily texture, highly resistant to weather and pests.
- **Uses:** Outdoor furniture, boat decks, and high-end indoor furniture.
- **Types:** Burmese Teak, Indian Teak, Plantation Teak.

# MAHOGANY

- **Characteristics:** Deep reddish-brown, straight grain, excellent workability.
- **Uses:** Furniture, boat building, musical instruments, and veneers.
- **Types:** Honduran Mahogany, African Mahogany.

# PINE WOOD

- **Characteristics:** Soft, lightweight, with a straight grain and knots.
- **Uses:** Construction, paneling, furniture, and millwork.
- **Types:** Eastern White Pine, Southern Yellow Pine, Ponderosa Pine.

# SPRUCE

- **Characteristics:** Light, soft, with a straight grain and uniform texture.
- **Uses:** Construction (framing, beams), musical instruments (soundboards), and aircraft.
- **Types:** Sitka Spruce, White Spruce, Engelmann Spruce.

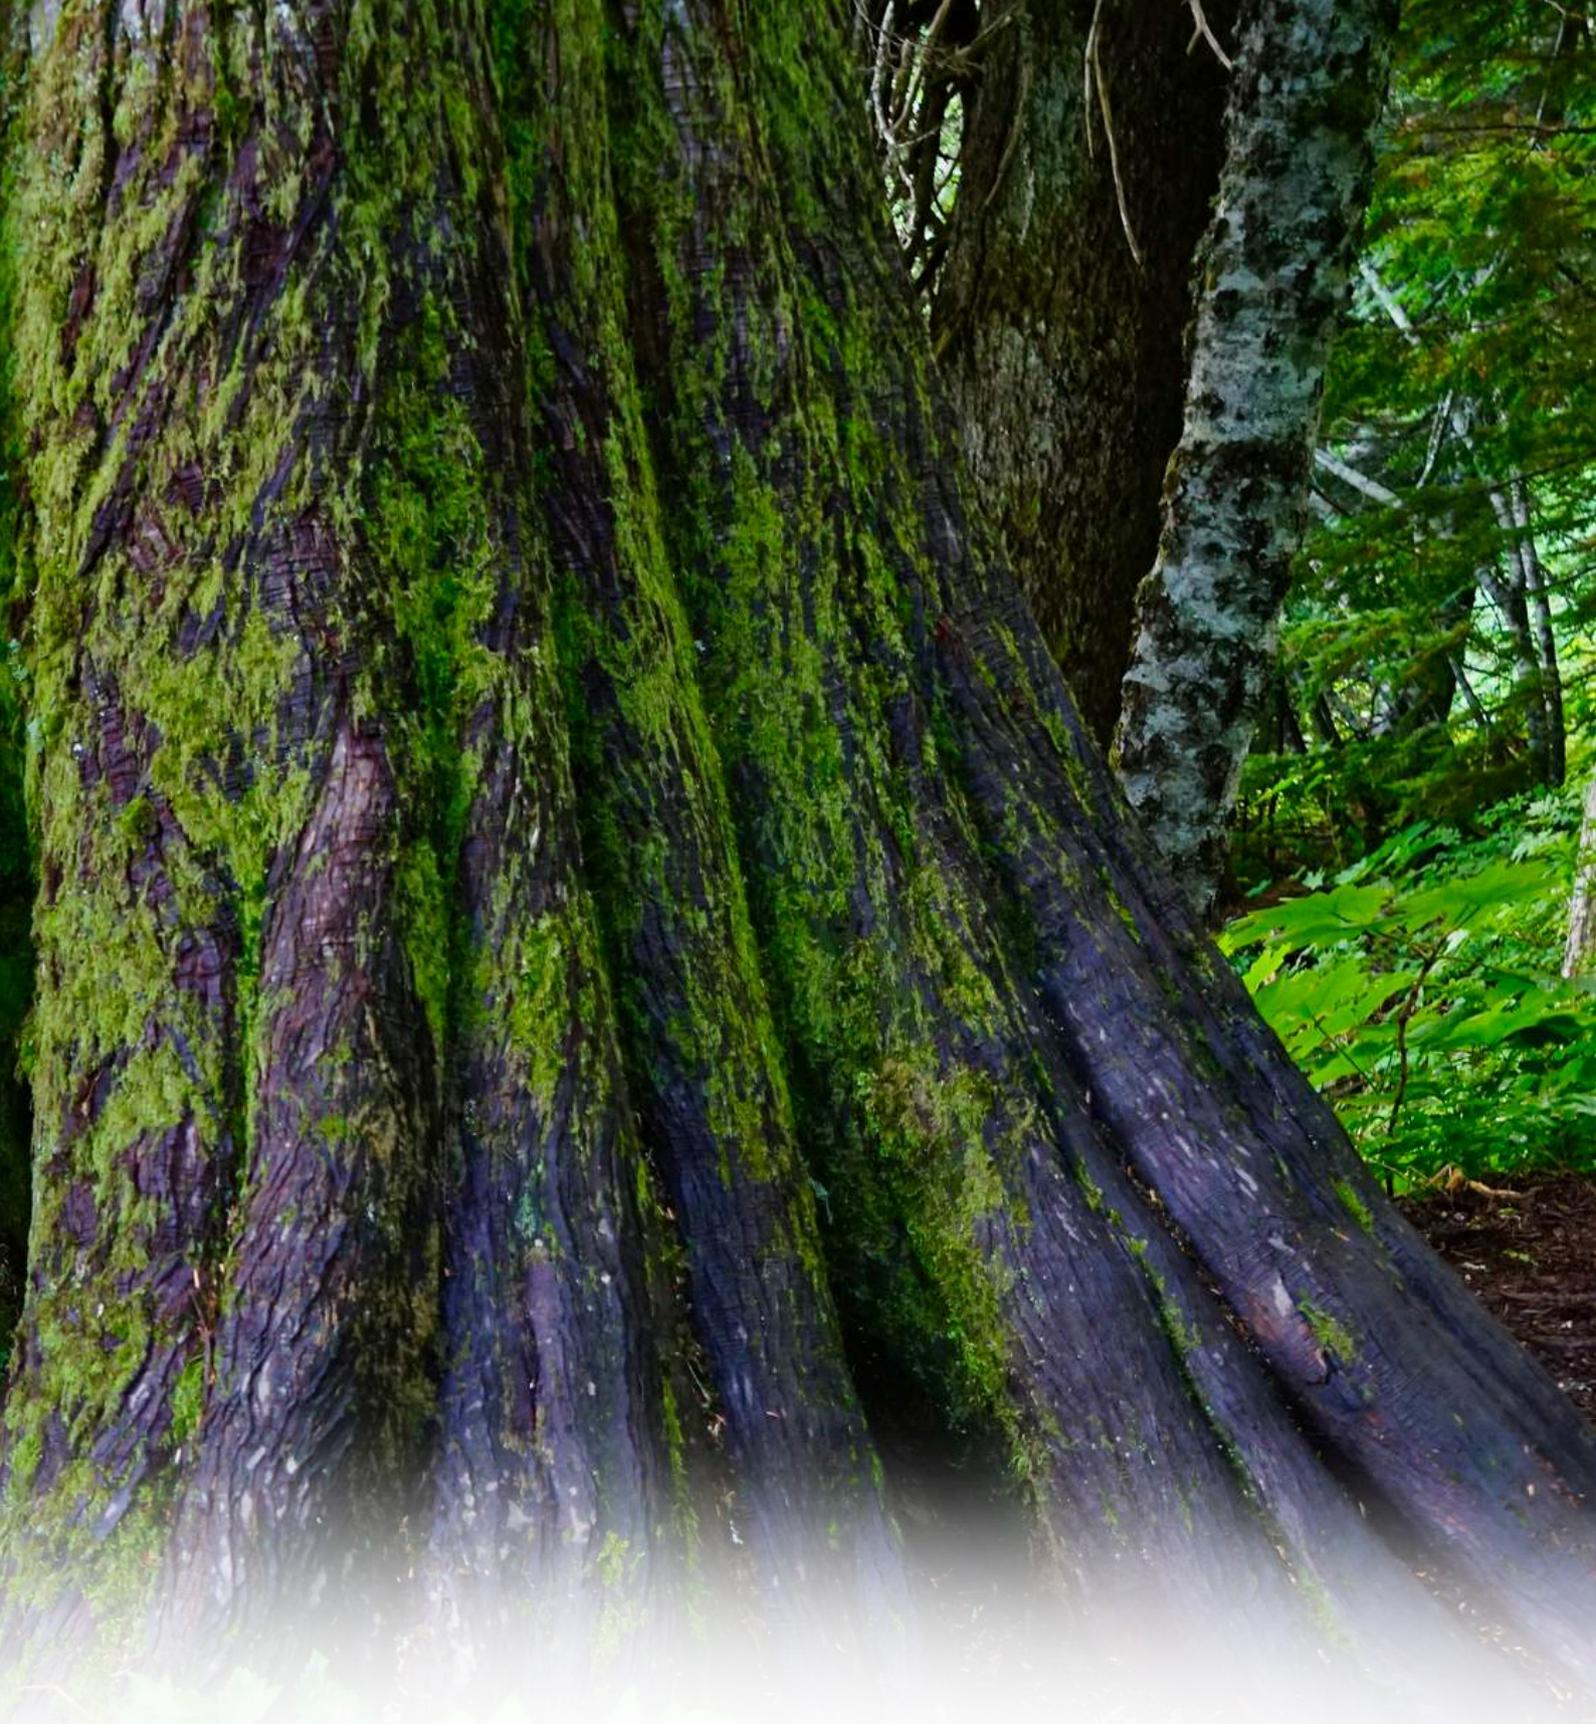

# CEDAR

- **Characteristics:** Golden brown, oily texture, highly resistant to weather and pests.
- **Uses:** Outdoor furniture, boat decks, and high-end indoor furniture.
- **Types:** Burmese Teak, Indian Teak, Plantation Teak.

# FIR

- **Characteristics:** Straight grain, uniform texture, strong and relatively soft.
- **Uses:** Construction (beams, framing), plywood, and interior paneling.
- **Types:** Douglas Fir, Balsam Fir.

# HEMLOCK

- **Characteristics:** Light in weight, moderately strong, fine to medium texture.
- **Uses:** Construction (framing, millwork), railway ties, and pulp.
- **Types:** Western Hemlock, Eastern Hemlock.

# REDWOOD

- **Characteristics:** Soft, light, reddish-brown, highly resistant to decay.
- **Uses:** Outdoor furniture, decking, and siding.
- **Types:** Coastal Redwood, Giant Sequoia.

# TEAK WOOD VARIETIES

Teak wood is renowned for its durability, water resistance, and beautiful grain patterns. It is widely used in furniture, flooring, boat building, and more. Some of the most common varieties of teak wood available at Patel Timber are -

# INDIAN TEAK

- **Origin:** India
- **Characteristics:** Darker color with a more wavy grain pattern, less oily compared to Burmese teak.
- **Uses:** High-quality furniture, doors, and window frames.

# BURMESE TEAK

- **Origin:** Myanmar (Burma)
- **Characteristics:** Golden brown color, straight grain, natural oils that enhance durability and water resistance.
- **Uses:** High-end furniture, boat decks, flooring, and outdoor furniture.

# AFRICAN TEAK

- **Origin:** West Africa
- **Characteristics:** Golden to medium brown, coarse texture, less oily than Asian teak, but highly durable.
- **Uses:** Outdoor furniture, flooring, and general construction.

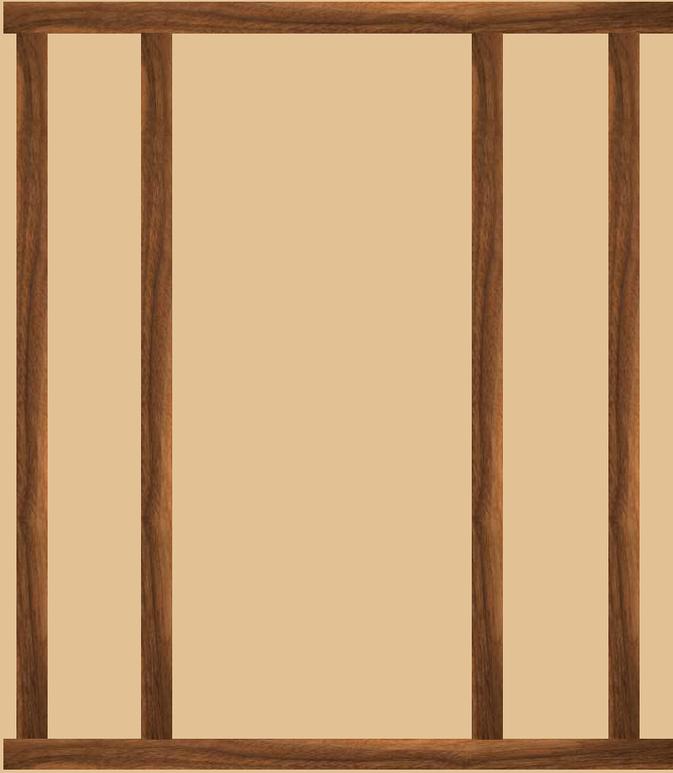

# PLANTATION TEAK

- **Origin:** Various tropical regions, including Central and South America, Africa, and Asia.
- **Characteristics:** Managed and sustainably harvested, typically lighter and less dense than old-growth teak.
- **Uses:** Furniture, flooring, and paneling.

# DOOR FRAMES DESIGN

At Patel Timber Company, we specialize in crafting custom door frames that blend functionality with exquisite design. Our expert artisans use only the finest quality timber to create door frames that enhance the aesthetic appeal and structural integrity of any space. # OUR CLIENTELE

# COMING SOON

Complete Door Frames  
D-2-1 (Design-to-  
Installation)

# 1. Wood Selection

- Choose the finest quality timber for your door frames, such as Indian Teak, African Teak, etc.

## 2. Wood Seasoning

- Naturally drying the wood or using a kiln to reduce its moisture content to around 6-8%. This prevents warping and cracking.
- Storing the seasoned wood in a dry, well-ventilated area until it's ready for use.

### 3. Cutting The Wood

- Dimensions of the door opening are measured to decide on the width, thickness, and height of the frame.
- The seasoned wood is cut with precision to the required dimensions using a saw.
- The locations for joints and hinges on the cut pieces are marked.

## 4. Planing & Shaping

- Using a planer to smooth the cut pieces of wood, ensuring all surfaces are even and flat.
- Shaping the edges of the frame pieces if needed, using a router to create decorative profiles or bevels.

## 5. Assembling The Frame

- Creating the necessary joints for assembling the frame including mortise and tenon, lap joints, or dowel joints.
- Assembling the frame using wood glue & clamps to ensure a tight fit. Also, Reinforcement of the joints with screws or nails is done for added strength.

## 6. Sanding & Finishing

- Sanding the assembled frame to remove any rough spots, ensuring a smooth finish.
- Doing polishing & lamination to protect the wood and enhance its appearance.

## 7. Polishing & Painting

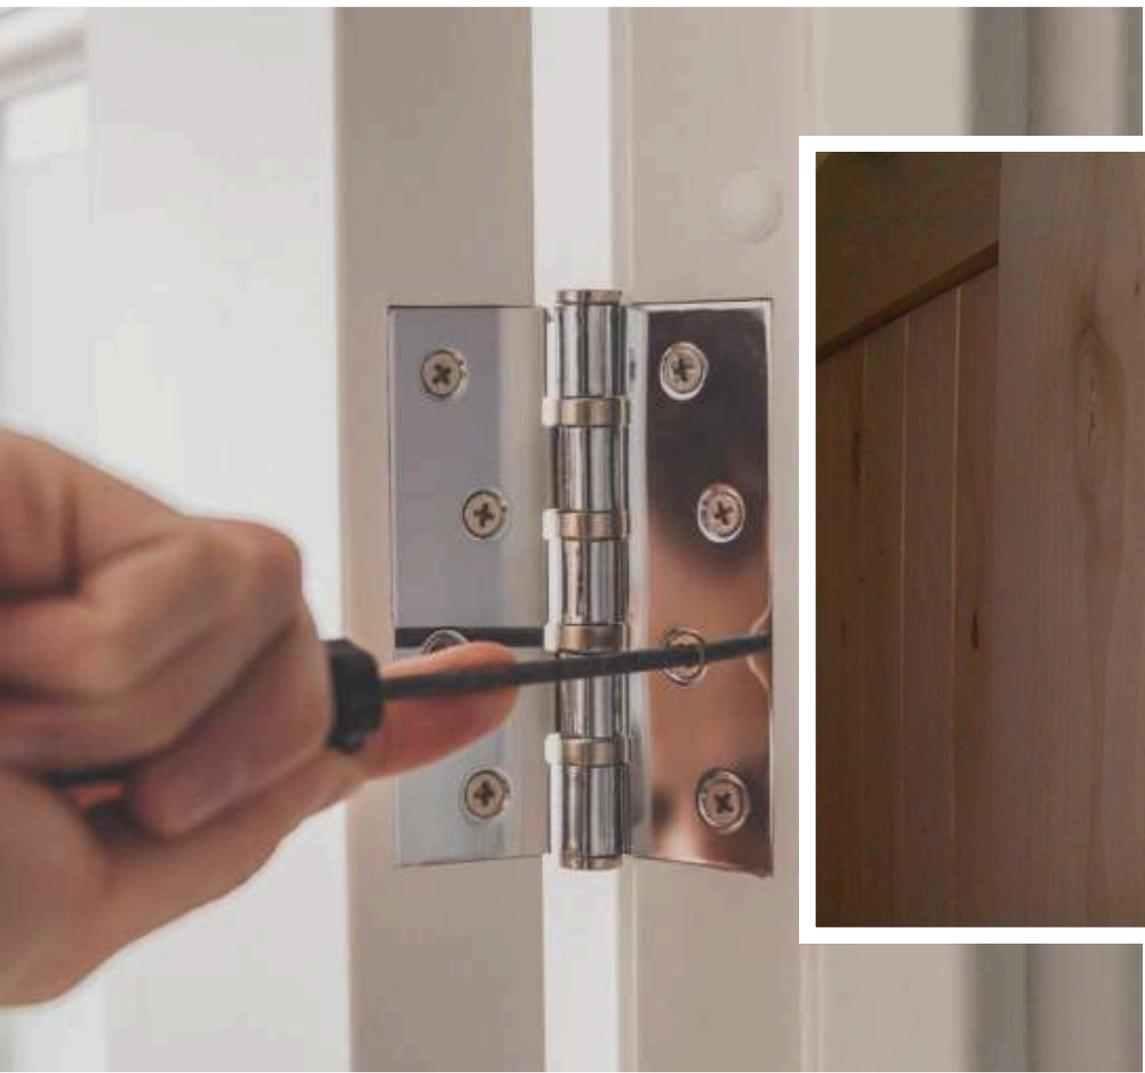

- Applying a high-quality primer to enhance paint adhesion and durability.
- Using premium wood polish to bring out the natural grain and provide a protective layer.
- Offering a wide range of paint colors and finishes to match your style preferences.
- Ensuring an even, flawless finish with meticulous attention to detail and quality control.

## 8. Fitting The Frame

- Positioning the frame in the door opening, using shims to ensure it is level and plumb.
- Securing the frame to the wall studs using long screws or nails through the sides of the frame.
- Filling any gaps between the frame and the wall with insulation foam or backer rod to prevent drafts.

## 9. Final Adjustments

- Adjusting the hinges if necessary to ensure the door opens and closes smoothly without binding.
- Applying caulk around the edges of the frame where it meets the wall to seal any gaps.
- Trimming or molding around the frame for a finished look, nailing it securely and filling any nail holes with wood filler.

We are here to assist you with all your timber needs. Contact us today to discuss your project, request a quote, or learn more about our products and services!
